\$50.3M

Total funds at risk

FRAUD TYPE BREAKDOWN

GEOGRAPHIC DISTRIBUTION

Fraud reached 30 states

Accepted cases came from 30 states this quarter, from Maine to Utah. Florida, Texas, and Virginia recorded the highest concentration of Q3 submissions.

#1 FL #2 TX #3 VA GA IL MA NE

● High Activity ● Moderate ● Low ● None Reported

#1 Attack Vector

Mortgage payoff made up just 15.9% of accepted cases but carried **\$22.3M in reported losses**, more than half of the quarter's total, with an average attempted loss of **\$2.2M per incident**.

ACCEPTED CASES BY MONTH

▲ September led in accepted cases, with **37%** of the quarter's total.

STANDOUT STORIES & SIGNALS

Account takeover doubled

Account takeover rose to **19% of accepted cases**, nearly double Q2's share. It also carried the second-highest average loss of any fraud type this quarter, **\$640K per case**.

July led in total submissions

129 cases were submitted in July alone, 47% of the quarter's 274 total submissions. Fraud actors know the real estate market runs in cycles, and reports climb when closing activity peaks.

Virginia enters the top 3

Virginia joined Florida and Texas as one of the three most active states for FRS submissions this quarter.
